Clavister LynxSeries

X8

Clavister Lynx Series – rugged and durable, with outstanding performance

The Clavister X8 is targeted for installations where standard security products cannot function reliably. With its industrial, rugged design, the durable Clavister X8 can withstand harsh, industrial environments and deliver outstanding solid performance, offering unified security management between office environment and industry environment. The Clavister X8 is perfect for tough environments, such as remote industrial locations, offshore installations and other demanding environments where high-end security is required.

Key Features

Fast, powerful firewall

- The Clavister X8 offers the same powerful firewall features found in all Clavister products, including IPsec/SSL VPN tunnels, Application Control, advanced routing and firewall performance up to 1 Gbps.

Support for Clavister Security Subscription

- Being secure means to have it all. Clavister X8 supports Clavister Security Subscription, which include all our product and support services. With Clavister Security Subscription your installation is always secure and fully served.

Industry standards

- Clavister X8 supports industry standard connectivity, such as DIN rail mounts, making it easy to fit in industrial environments.

Key Benefits

Perfect for demanding applications

- Clavister X8 is well suited for tough work, whether it is securing industrial environments or protecting remote power stations.

Unified Security Management

- Manage your industrial network security the same way you manage your office network security. Clavister X8 can be managed using Clavister InControl, our centralized management system, together with your other Clavister products.
