Clavister **Wolf**Series

W3

Clavister Wolf Series – high performance, excellent scalability and robust functionality

The Clavister W3 is highly suited as a security gateway for larger remote/branch offices or as an entry-level enterprise security gateway. The Clavister W3 delivers next-generation firewall security at a break-through price point, offering flexibility and robust features without compromising security.

The Clavister W3 is an ideal solution for any organization that need premium network security in a cost-effective package.

Key Features

Clavister Application Control

- Clavister W3 offers full support for Clavister Application Control, with over 1 000 applications and 5 000 application attributes, all easily managed as any other Clavister rules.

High Availability Support Included

- High Availability (HA) support is included for free. Buy a second Clavister W3 and configure them as a cluster. No hidden costs, no extra charge.

Support for Clavister Security Subscription

- Being secure means to have it all. Clavister W3 supports Clavister Security Subscription, which include all our product and support services. With Clavister Security Subscription your installation is always secure and fully served.

Key Benefits

Great value for money

- The Clavister W3 packs a lot of processing power into the beautiful, purpose-built 1U 19" rack mount. This cost-effective solution offers Gigabit firewall security for a wide range of network applications.

Easy to set up and use

- Setting up and configuring your Clavister W3 is easier than ever. With included support for Clavister InControl, Clavister Web Management and Clavister CLI, you choose your way of working. Personalized management—Clavister style.
